

George McCuen, Tim Ayles and Jim Riley

We are advocates of investing for income streams, whether from stocks or bonds. We focus on how much an investment can pay our clients and most importantly, the likelihood it will continue to pay, even in a slow economy. You don't want to rely on higher stock prices to meet your retirement goals. Give us a call and let's talk about your investment objective—there's no obligation.

### **Sensible Income for a Respectable Retirement**
